

CLICKMEDIA WINTER SPECIALS

Clickmedia is a Family owned business which began in 2000 with a vision to build a uniquely digital print shop using the latest in computer and digital print technology. The result is a company providing ‘offset quality’ digital and large format printing across Sydney with fast turnaround times at lower costs.

Our family company has grown quickly through innovation and a loyal customer base and as a family business, Clickmedia has remained strong by being engaged with our customers and returning that loyalty in quality, service and price.

Clickmedia is proudly based in Penrith NSW, and supplies design & print for the Sydney market. It has remained local to Penrith because it is the fastest growing LGA in Australia with excellent transportation routes for shipping our finished products.

Here’s our guarantee to you...

If you are not completely satisfied with the quality, return it and we will reprint to your satisfaction.
